Boost Health & Productivity

The Benefits of Height Adjustable Desks in the Modern Office

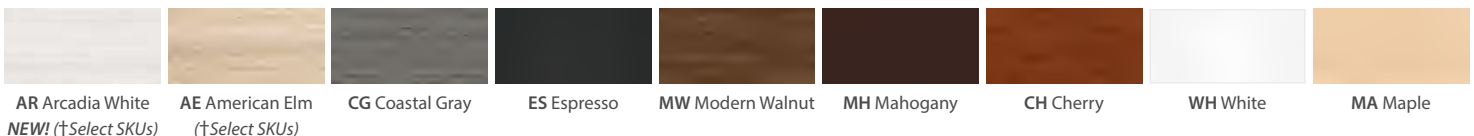

Incorporating height adjustable desks into your office environment offers numerous health and productivity benefits. Alternating between sitting and standing throughout the day helps reduce the risks associated with prolonged sitting, such as cardiovascular disease, obesity, and back pain. Studies have shown that standing desks can improve posture, reduce musculoskeletal discomfort, and even boost mood and energy levels. Furthermore, employees who use standing desks often report higher productivity and focus. Regular movement, enabled by our height adjustable desks, can also enhance circulation and decrease fatigue, making for a more dynamic and healthier work environment.

OfficeSource® Height Adjustable desks are easy, quick and quiet to operate and offer the optimal vertical range to accommodate people of all sizes.

MODULAR ELECTRIC SYSTEMS

How To Order:

- 1. Determine the configurations that need powered and electrical load requirements.
- 2. Choose **Base Feed**.**
- 3. Establish placement of **Power Blocks**.
- 4. Identify **Receptacles** per power block.
- 5. To figure harness length, take the center of the item, where the power blocks are to be placed, plus the length of any items the harness needs to pass under. Subtract 7" and use the next larger size harness, unless measurement is exactly the size of a harness.

For Example:

Sample #1- The power blocks are centered in the 42" returns, so half the return size is 21" for each return (21" + 21") plus 30" depth of the peninsula, minus 7".
(21" + 21" + 30" - 7" = **65" harness length**)

6. Determine needed accessories
